About Us

ZFK Premium Contracting Company LLC is a Dubai based contracting company specialized in road construction and building contracting works across the United Arab Emirates. Established in 2019, the company is committed to delivering high quality infrastructure and construction solutions with a strong focus on safety, quality, and timely project execution.

ZFK Premium Contracting Company LLC combines practical field experience with professional project management to execute works in accordance with international engineering standards and local authority requirements.

ZFK Premium Contracting Company LLC Articulates effectively the different knowledge areas of Integrated Construction and Project management, these which include; scope management, time management, cost management, quality management, human resource management, communications management, risk management and procurement management.

Mission

Our mission is to perform for our customers the highest level of quality construction services at fair and market competitive prices. To ensure the longevity of our company through repeat and referral business achieved by customer satisfaction in all areas including timeliness, attention to detail and service minded attitudes. To maintain the highest levels of professionalism, integrity, honesty and fairness in our relationships with our suppliers, subcontractors, professional associates & customers.

Vission

Our vision is to contribute to modern development through high-quality construction and engineering solutions. We emphasize upon the following commitments:

We will conduct ourselves with uncompromising commitment to our core values

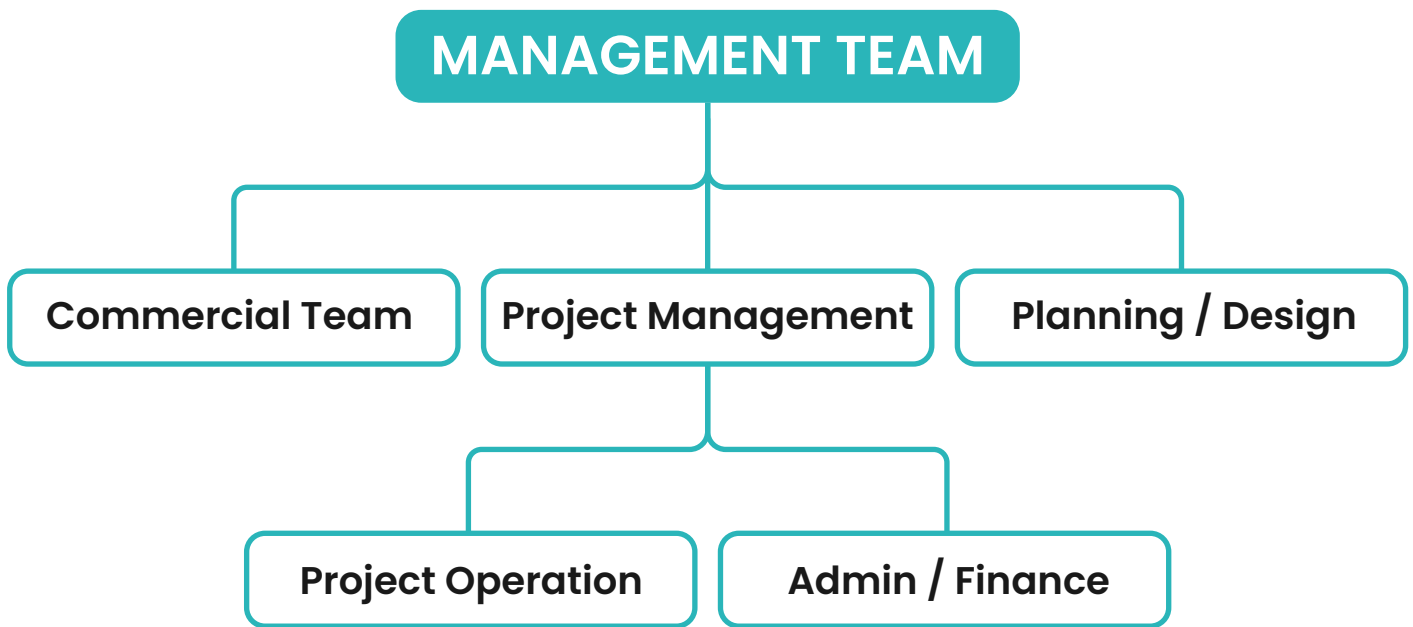

We will inspire and guide with positive leadership.

We will retain the best talent by providing challenging opportunities and encouraging innovation.

We will leverage our resources through value-added alliances, partnerships and acquisitions.

The Company

ZFK Primum Contracting LLC offers a full range of pre-construction, construction and project management services. Our project teams maintain a strong foundation of trust and mutual respect generated through positive relationships with clients, architects, engineers, subcontractors and suppliers. A company-wide policy encouraging shared performance responsibility ensures the highest degree of professional service and results on all projects undertaken.

Safety

we have developed a culture that promotes an injury-free environment and provides the safest workplace possible for our employees, subcontractors, clients and others who enter or who near our construction sites." Every worker goes home from each of our jobs, every day". We are dedicated to elevating the standards for safety in the construction industry through a wide variety of methods—from zero-tolerance drug testing to our aggressive fall-protection program, which includes partnering with the leaders in the insurance industry to develop the next generation of fall-protection systems. Through innovative training and education programs, we also provide our employees and subcontractors with the tools, knowledge and resources they need to increase safety, reduce risk and improve loss control on every project we manage.

QUALITY

1. The Quality group is a collection of individuals responsible for implementing ZFK-P Co. Quality Policy.
2. The Quality group is well supported by the Construction Quality Assurance, Civil Engineering Group, knowledge Management Group, and the Training Group.
3. The Civil Quality Assurance group ensures that the project quality activities are planned and implemented in accordance with our Quality Policy, in all deliverables.
4. The Civil Engineering Group defines, maintains and improves our Quality Management System.
5. The Knowledge Management group ensure latest technology is incorporated in to our Tools, Techniques and Methodologies used to deliver high-quality services to our customers ensure continuous process improvement.

Quality Checking

- > Quality Control
- > HSE / Safety Management
- > Site Supervision
- > Maintenance Works
- > Equipment Support

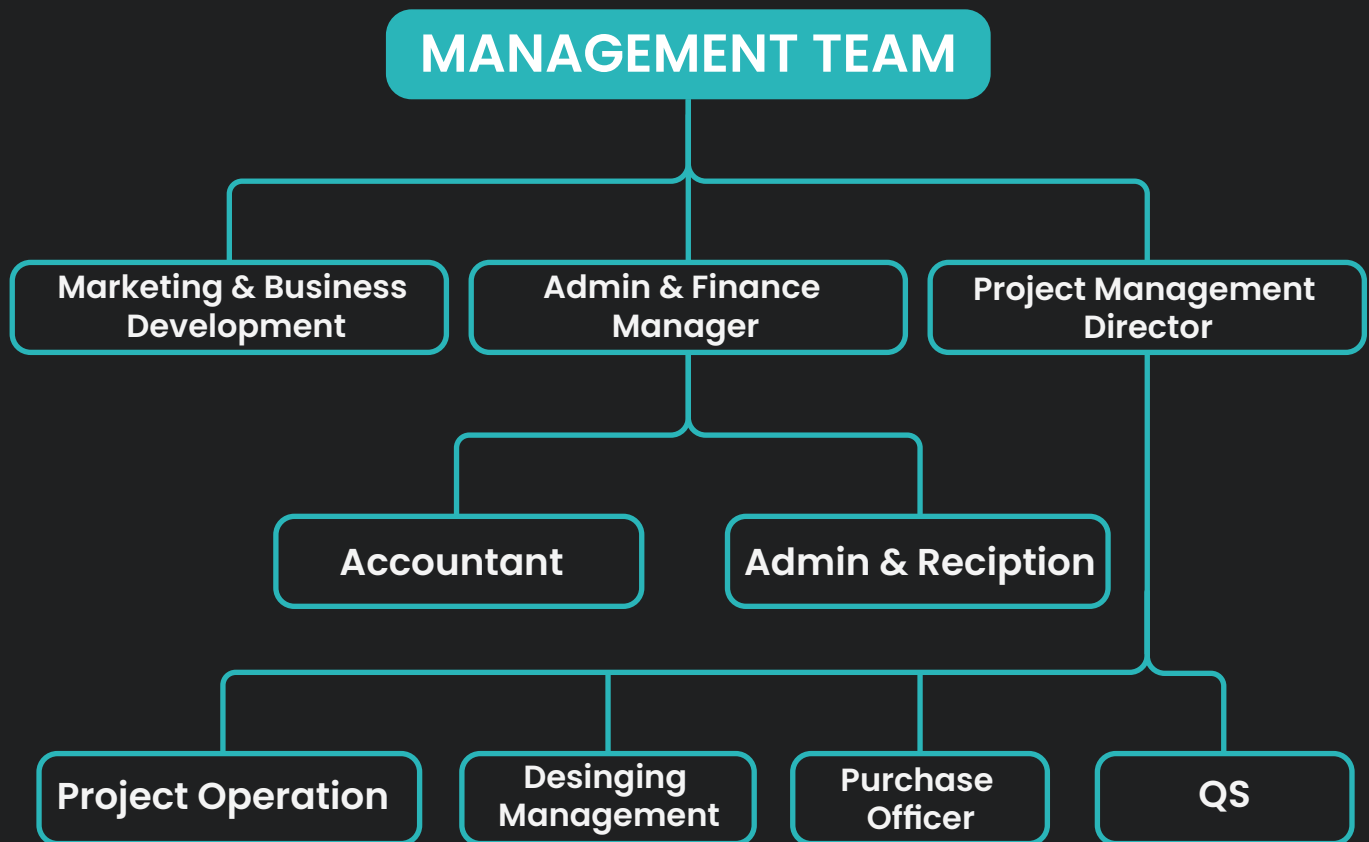

GENERAL CONSTRUCTION SERVICES

- > Civil Construction Works
- > Infrastructure Development
- > Road & Drainage Works
- > Concrete Works
- > MSE Wall Construction

ZFK Premium Contracting Company LLC Organization Chart 2026

TECHNICAL EXPERIENCES / PARTNERSHIP

Tunneling and Road Projects:

Our company ZFK Premium Contracting LLC has unique practical and technical experiences in Tunneling and Road project in UAE. Our latest Tunneling and Road Project was construction of Khorfakan highway project in which we contributed number of services in sub-contract form such as:

1. Operation services for tunneling: Excavation, Preliminary shotcrete & Rockbolt support, Secondary lining concrete support etc,
2. Supportive service: Design, Supply and installation of temporary ventilation system for tunneling during construction
3. Technical support: Methodology and technical support, Etc

Civil Construction Services

Implementation of project's on-time and on-budget according to plan. The client's interest is represented throughout the project, from start to finish, ensuring schedule compliance, coordinating proper document control and optimizing the owner's investment in the project. With construction management, ZFK Premium Contracting Company LLC typically acts as an agent for the owner, helping to manage the whole process. The owner pays a fee for this service as opposed to a markup on each item.

This differs significantly from general contracting. Under a construction management arrangement, all bids and information are submitted to the client. The client and the ZFK Premium Contracting Company LLC's manager decide together which subcontractor to use for the work. They are, in effect, working as a team. ZFK Premium Contracting Company LLC is there to help make decisions on whom to use and manage those subcontractors during the building process, eliminating time wasting for client.

Culvert Work Services

ZFK Premium Contracting Company LLC provides high-quality culvert installation and maintenance services tailored to robust drainage and infrastructure needs. We specialize in the professional setup of various drainage systems, including 4-cell culverts, ensuring optimal water flow management according to strict engineering standards. To guarantee long-term durability and prevent soil erosion around the structures, we seamlessly integrate heavy-duty gabion walls and riprap work into every project.

RipRap & Concrete Protection

ZFK Premium Contracting Company LLC offers specialized riprap and concrete protection services to shield infrastructures from water erosion and structural undermining. We strategically install durable rock riprap and high-strength concrete linings along embankments, shorelines, and culvert outlets to absorb wave energy and stabilize the ground. Whether managing heavy water flow or reinforcing vulnerable slopes, our robust erosion control solutions ensure the long-term stability and safety of your civil and commercial projects.

Infrastructure & Specialized Services

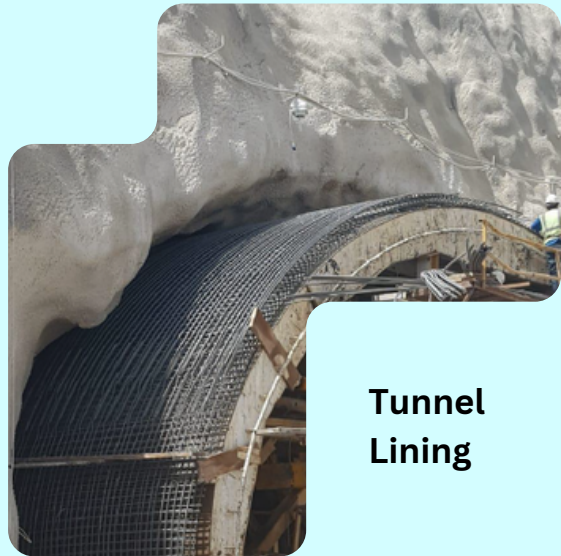

- > **MSE & Gabion Walls:** We design heavy-duty MSE walls and gabion structures for strong earth retention, slope stabilization, and advanced erosion control.
- > **Utility Works:** Our team provides complete underground infrastructure solutions, including the installation of reliable water, drainage, and power networks.
- > **Lagoons & Waterfalls:** We engineer premium, leak-proof lagoons and custom waterfalls, combining high-grade lining systems with structural durability.
